The Lawrence Madeiros Scholarship Fund

was established in 2001 to provide scholarship monies to high school seniors with chronic disorders continuing their education at an accredited college or university. To date, we have awarded \$37,000 in scholarships to numerous inspiring students. Like Larry, these individuals live their lives to the fullest despite their chronic disorders.

We hope that by contributing in some way by running, walking, biking, volunteering, and or donating, you too will enjoy yourself, and directly help someone fulfill their dreams.

Passionate, Positive, Caring, Loving, Determined, Strong, Husband, Father and Friend. These are words that describe Larry Madeiros. He touched and inspired many people's lives despite the fact that he had a lot to deal with himself. Larry was born with Hemophilia, (a blood disorder) and through tainted blood transfusions, developed Hepatitis C and HIV. Even with his health issues he never let it affect his positive attitude and belief that he was put on this earth to help and empower others. In 2001, at the age of 38, Larry lost his fight, while awaiting a liver transplant. To honor Larry, the Lawrence Madeiros Scholarship was established to provide funds for graduating high school seniors with a chronic disorder continuing their education at an accredited college or university.
